

Khalifa Alsuwaidi

Computer Science Student | khalifaalsuwaidi332@gmail.com

PROFILE

Computer Science student with hands-on experience in software development, cloud technologies, machine learning, and artificial intelligence. Strong interest in building practical AI solutions and applying AWS services to real-world projects. Participated in an AWS autonomous racing competition in Abu Dhabi and completed multiple academic projects involving machine learning and AI.

EDUCATION

American University of Sharjah

**Expected Graduation:
2028**

Bachelor of Science in Computer Science

TECHNICAL SKILLS

- **Programming:** Python, C++, Java, SQL, JavaScript, HTML, CSS
- **AI & Machine Learning:** supervised learning fundamentals, model training, evaluation, data preprocessing, AI search concepts
- **Cloud & AWS:** strong hands-on AWS experience, cloud-based AI/ML workflows, AWS autonomous racing platform
- **Tools & Technologies:** Git, GitHub, relational databases, Oracle SQL, Jupyter-style development environments
- **Core CS:** object-oriented programming, data structures, algorithms, databases, software engineering, version control

AWS AUTONOMOUS RACING COMPETITION

Participant - Abu Dhabi, UAE

- Participated in an AWS autonomous racing competition focused on training and improving an AI-driven racing model.
- Worked with reward-based model optimization, training iterations, and performance evaluation in an AWS environment.
- Gained practical experience applying machine learning concepts to an autonomous system.

SELECTED ACADEMIC PROJECTS

Machine Learning Projects

Built and tested machine learning models using Python, including data preparation, model training, evaluation, and iterative improvement.

Artificial Intelligence Projects

Completed AI-focused projects involving intelligent search, problem solving, and algorithmic decision-making.

Database & Software Development

Designed and implemented relational database solutions and software projects using SQL, programming fundamentals, and version-control workflows.

ADDITIONAL STRENGTHS

Problem solving | Team collaboration | Technical documentation | Rapid learning | Analytical thinking
