ABOUT ME

Fourth-year Computer Science student at the American University of Sharjah, passionate about leveraging machine learning and software engineering to optimize energy systems. Eager to apply analytical insights and modern AI tools to solve complex technical challenges.

EDUCATION

American University of Sharjah, Sharjah, UAE
BS Computer Science

Expected Graduation May, 2027

EXPERIENCES

Software & Digital Solutions Intern

Daaken Al-Sharq Oilfield Services — Dammam, Saudi Arabia, Summer 2026

- Rotated through Silixa (fiber-optic DAS/DTS sensing) and Novomet (ESPs, artificial lift), prototyped a DTS data processing tool with Silixa's team.
- Built and deployed a partner facing operations portal (Flask, SQLite, n8n) with request intake, dashboards, and automated workflows.
- Delivered additional internal tools spanning workflow automation and the corporate website

Data & Software Engineer – Intern

TGT Oil and Gas Diagnostics – Abu Dhabi, UAE, Summer 2025

- Contributed to developing a data driven corrosion detection program using TGT sensor data
- Assisted with building a bidirectional LAS-Excel conversion workflow.
- Designed dashboards and visualizations for well integrity analysis.

Student Grader – CMP 220: Advanced C++

American University of Sharjah – Fall 2025

- Evaluated and graded advanced C++ assignments, including object-oriented programming, ensuring code efficiency, logical structure, and clarity.
- Delivered detailed, constructive feedback to support student learning.

Resident Assistant (RA)

American University of Sharjah – Fall 2025 - Present

- Supported 30 residents in a 200+ freshman student dorm, fostering an inclusive and welcoming environment.
- Assisted with guidance, mentorship, and conflict resolution for the residents.
- Organized events to promote engagement and collaboration

SKILLS

Technical Skills: Advanced C++, Java, JavaScript, HTML/CSS, MATLAB, Assembly, Data Structures & Algorithms, Web Applications, Computer Networks, Cybersecurity Fundamentals, Artificial Intelligence, Machine Learning, Oil & Gas Diagnostics, Process Automation, Web Development (Flask, SQLite), Data Processing & Visualization

Languages: English (Fluent), Arabic (Fluent), French (studied for 5 years)
